

## Characteristics and features

- NR/SBR- quality
- sulfur cured
- Isolating mat according VDE 0303 part 21
- dielectric strength ca. 60kV/4mm
- complies with DIN VDE 0680 part 1:1983-1
- rebound > 50%

PAH-free  
EU  
1272/2013

REACH-  
conform

Nitrosamine  
-free

RoHS 2-  
conform

## Physical data

Polymer		DIN ISO 1629	NR/SBR

### Important information:

The listed test values and data are based on results of many years of development, tests and proving. A characteristics warranty and guaranteed function can't be derived from the information given. It is within the user's responsibility to test the selection of material in a specific application to ascertain his intended operational capability. Technical changes within the product development are subject to change.

The above data is based on accompanying compound release tests and represents product classification numbers, however they do not contain ascertained properties and cannot be binding. We reserve the right to alter product constants with the scope of technical progress or new developments. This document was printed by computer therefore not signed.
